CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

Guam's intentions for PY2019 were to continue to utilize federal funds to the benefit of the island's population through community enhancement activities to broadly serve low and moderate income populations by areas or specifically as for persons and families and homeless persons and families. The activities (projects) selected were chosen to improve or create new public facilities, sustain affordable housing, increase homebuyer education and counseling, enhance community life and promote fair housing. Guam made minimal progress during the PY19 year on these intended goals. The period was a challenging one with seven of the 12 months actively under the most significant Covid shutdown protocols mandated by government health experts. Activities, new or ongoing, as proposed for the PY2019 cycle were universally negatively impacted. Early on in PY2019, Guam was already experiencing significant delays in efforts to develop public facilities and affordable housing (homebuyer) projects. Development of projects funded by the HOME and CDBG programs were particularly impacted by labor shortages resulting from the progressive reduction and restriction of federal approval of H-2B labor workers applied for by contractors of non-military projects. Guam has lagged behind meeting the need for a skilled non-H-2B workforce to fill the gap created by the reduced access to the H-2B workforce for non-military projects. A robust military development schedule has created a market for prime and subcontracted work for local contractors, engineering firms, architects, materials suppliers and other construction development related disciplines. Internally, GHURA struggled with staff turnover through retirement and separation in key administrative and senior management positions. Recruitment to fill positions was impeded by the Covid shutdown and several mandated periods of office closure because of the timing of the separations which occurred at the end of 2019 and the start of 2020.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected - Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected - Program Year	Actual – Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

This reporting period, for 7 of 12 months Guam was in a Covid 19 Public Health State of Emergency (PHE). Public Svcs & Public Fac & Imp Activities were adversely affected. Timelines for activities in Guam's PY19 AAP were impacted & slowed. Guam, under strict stay-home & social distancing orders, came to an abrupt shut down to stop Covid spread to comply with the island's PHE. This can be seen through prog activity delays in draws, delays in accomplishments, or delays in projected activity schedules in the AAP.

Through PS, Guam met the priorities of providing suitable living environments & enhancing the quality of life of very-low & low-income individuals & special needs populations. The following projects aimed to contribute toward meeting those needs prior to the PHE. The Opportunity Initiative 2019, Lighthouse Recovery Ctr, Fam. Svcs Ctr, the Homeless Management Information System, GALA Empowerment Prog & GHURA's Hsg Counseling Prog. CDBG & ESG prog funds are used to fund programs operated by non-profit organizations such as TSA, Manelu (formerly Big Brothers/Big Sisters), & GALA to provide public svcs & special needs assistance to island residents. Prior to pandemic protocols, ongoing funded programs had been operating generally satisfactorily including the Lighthouse Recovery Ctr, Fam. Svc Ctr, & The Opportunity Initiative. Operations during the pandemic slowed or halted all svcs who relied on direct contact to engage their populations. And newly-funded providers such as GALA struggled with their startup as their svcs coincided with the start of the pandemic. To assist these organizations, GHURA has determined to revisit their agreements to provide svcs in order to revise their timelines to provide svcs to reflect the existing operational environment. Other effects which have yet to be measured are the redirection of their limited resources to meet developing needs of the community stemming from the pandemic, & the inflow of fed covid relief funds to these organizations to meet these new or increased areas of community need. By example, increased hsg instability, food insufficiency, prolonged job loss or wage reductions, etc.

Guam has focused the use of HOME funds to meet homeowners' needs to rehab their homes to increase the useful life of the prop or to meet the needs of homeowners with disabilities or the elderly. Guam also focused on assisting new first-time homebuyers by making available for sale new homes or to acquire & rehab existing homes (the latter to also preserve the existing supply of affordable homes even in an increasing (price) mkt.) Increased costs for homeowner rehab projects is a deterrent to participation. Guam also notes that homeowners (esp. elderly homeowners) hesitate to participate in the rehab loan prog despite the possibility to defer pymts though the affordability period. Homebuyer activities for first-time buyers has slowed. New home const has been impacted in much the same way as CDBG public facilities const has been impacted by external factors described earlier if not more so since the contractors utilized are smaller & more susceptible to labor loss when workers leave for premium pay opportunities at larger contractors. Acquisition & rehab projects rely on a similar small-business contractor pool. As a result of the pandemic, the lack of progress was exacerbated. CDBG projects during the period included the design & planning for the New

Sinajana Fire Stn & the rehab of a village recreational facility to be built in Toto.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted). 91.520(a)

	CDBG	HOME	ESG	HTF
White	0	0	1	0
Black or African American	0	0	0	0
Asian	7	1	0	0
American Indian or American Native	0	0	0	0
Native Hawaiian or Other Pacific Islander	2,327	1	36	0
Total	2,334	2	37	0
Hispanic	0	0	0	0
Not Hispanic	2,334	2	37	0

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Guam assisted 2 households below 60% area median for this reporting period. The assistance provided was to first- time homebuyers under the Renewal Affordable Homes Program. Beneficiaries included two-parent households, one of Asian descent and one of Pacific Islander. Guam processed each family under a lease with option to purchase and later provided a 20% subsidy on the sales price. Each family is committed to a 20 year affordability period on a Resale provision.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made	Amount Expended							
		Available	During Program Year							
CDBG	public - federal	3,110,435	1,106,114							
HOME	public - federal	985,162	355,504							
ESG	public - federal	247,680	166,596							

Table 3 - Resources Made Available

Narrative

Program year 2019 began promising for CDBG activities however mid-way through the year Guam experienced the onset the Global pandemic, COVID19. Despite the promising start for all program activities each one encountered the same issues once COVID19 shutdowns began for Guam in March 2021. This factor affected Guam's projected funding expenditures for all HUD CDBG, ESG and HOME funded activities pre-pandemic. In all, CDBG public service activities halted due to public safety concerns. PFI activities halted in whatever construction processing stage it was in. If these PFI activities were already permitted for construction very slow progress was made toward the advancement to reach the PY goals. This was the same for ongoing construction of projects which began in the previous program year shifted to the same pace in this reporting period. For activities with construction permits such as the Sinajana Arts Center display progress toward completion. With PFI activities that were pending building permits, minimal activity could be reported for expenditures. In PY2018, Guam awarded HOME funds to a mutual self-help build project for the acquisition of 10 lots. Guam continues planning efforts to reprogram these funds to another homebuyer project. This decision comes after the same subrecipient, who was also awarded with PY17 funds, has yet to complete that project. Habitat Guam was able to begin construction on the proposed (2) homes, despite seeing set-backs due to COVID. Guam will re-program funds to a project with a timelier completion rate.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Rehabilitation/Upgrade of the			Low-Moderate-Income
Astumbo Gym		100	Area Benefit
Rehabilitation/Upgrade of the Yigo			Low-Moderate Income
Gym			Area Benefit

Table 4 – Identify the geographic distribution and location of investments

Narrative

Table 4 identifies project activities that have long since been completed; the sections are not editable

from this IDIS Caper Template.

Guam identifies specific projects/activities based on community need in-line with its goals outlined in the Consolidated Plan.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

HUD funds leverage local resources to develop projects quite often by identifying available public land within Guam's inventory. Land is a particularly useful and scarce resource, one which enables HUD funds to be focused on the construction of facilities at considerable savings to project costs. Land identified for development is also indicative of local commitment to a project. Land was identified by the Mayor's Council of Guam and the Mayor of Mongmong-Toto-Maite for the rehab of an existing public recreational facility (a basketball court in Toto). The MTM Mayor is further pursuing additional funds to install an open-air cover (roof) to the basketball court. HOME and ESG match requirements do not apply to Guam.

Fiscal Year Summary — HOME Match						
1. Excess match from prior Federal fiscal year	0

Rehab of Existing Units	0	0
Number of households supported through		
Acquisition of Existing Units	0	0
Total	86	0

Table 12 - Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

Guam's goals for the PY2019 period included to sustain affordable housing stock by constructing homes to be sold to eligible low and moderate income individuals and families and to acquire and rehab existing stock also to be sold to income-eligible buyers. No units were completed in this program year in support of this goal for purchase. Development and construction slowdowns have broadly impacted the island's ability to keep up with the need for affordable housing. Labor issues and long time lags to permitting approval processes within the local government have been two key impediments to moving

forward. These issues have grown more pronounced over the years but came to a head during the pandemic. In the pursuit of affordable rental housing, Guam has largely supported the development of low-income tax credit funded projects. They too experienced a significant slowdown in development resulting in increased costs. As of the end of PY2019, the construction industry continues to struggle with reduced access to a non-H-2B workforce, increased materials costs, and reduced availability of materials.

Discuss how these outcomes will impact future annual action plans.

The need for affordable housing remains a goal. The outcomes to produce additional inventory to replace units lost either to time or to market movement (to be marketed at prices not attainable by a low or moderate-income buyer or renter) will also remain. Guam must pursue other means to meet the need to provide affordable housing. The Guam government (through the Office of the Governor) has formed a task force to review the impediment to development and construction stemming from the time-consuming permitting process. Guam is also exploring the possible use of alternative building systems which may provide an opportunity to bring down the cost of construction and speed up construction. Any building system on Guam must first and foremost be able to sustain typhoon force conditions and be fully insurable to island industry standards.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual	HTF Actual
Extremely Low-income	146	0	0
Low-income	0	2	
Moderate-income	0	0	
Total	146	2	

Table 13 - Number of Households Served

Narrative Information

Guam funded the Family Services Center using CDBG funds. The program served 146 extremely lowâ¿Â to moderate income families in addition to 33 more beneficiaries of non low-to-low moderate income.

Guam assisted 2 households below 60% area median for this reporting period. The assistance provided was to first- time homebuyers under the Renewal Affordable Homes Program. Beneficiaries included two-parent households, one of Asian descent and one of Pacific Islander. Guam processed each family under a lease with option to purchase and later provided a 20% subsidy on the sales price. Each family is committed to a 20 year affordability period on a Resale provision.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The CoC member organizations adopts the "No Wrong Door" policy. Basically, all service providers make every effort to assess homeless persons to determine appropriate programs based on their needs. Aside from the CoC's Homeless Outreach Team (HOT) various organizations conduct outreach activities to engage unsheltered individuals and use the VI-SPDAT tool to identify and prioritize individuals/families for housing assistance as well as support services. The Coordinated Entry System staff upon assessment do referrals of persons determined eligible for Emergency Solutions Grant (ESG) Rapid Rehousing Housing (RRH) help persons in housing search. If a person has disability, referrals are done to appropriate programs that provide housing to persons with disabilities.

Chronic homeless individuals/ families are prioritized for placement. The goal is rapid placement of households with long-term of homelessness. We not only have linked shelters to ESG RRH programs but also encouraged CoC funded programs to practice the Housing First approach that prioritizes providing permanent housing to people experiencing homelessness, thus ending their homelessness and serving as a platform from which they can pursue personal goals and improve their quality of life.

Addressing the emergency shelter and transitional housing needs of homeless persons

To address the needs of homeless persons in the emergency shelter they are assisted to enroll in mainstream services, secure appropriate ID and links to employment, training or education such as ESL for compact migrants who has limited English proficiency. For individuals who may have a permanent disability or who are elderly over 65 years, mainstream cash assistance remains the only source of nonemployment income if the person is not eligible for social security disability benefits or annuity. These individuals are encouraged to also apply for SNAP benefits to supplement their financial resources.

Persons in emergency shelters or transitional housing are assisted to apply for ESG RRH or are referred to permanent housing program, public housing and/or Housing Choice Voucher (HCV) program. GHURA, the PHA and collaborative applicant for CoC programs sees to it that participants from ESG RRH and Transitional Housing are assisted to apply for public housing or HCV as well as HUD VASH as soon as they are admitted in emergency shelter or are in temporary housing.

Recently, the Guam Homeless Coalition (GHC) collaborated with Guam Regional Transit Authority to provide transportation services to persons experiencing homelessness. The Ayuda Shuttle enable homeless persons to go their appointments, do grocery shopping, attend trainings or transport them to

their job sites. This collaboration address one of the barriers that were identified to assist the homeless.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

To help low income and extremely low-income persons to become homeless, those who are employed are supported to retain employment by providing other support services. If housing is subsidized and stable, the individual is connected to mainstream benefits to supplement their income if eligible. Some service providers assist clients to attend job fairs to obtain jobs, in addition to direct job search. The labor department has also redesigned skill training opportunities through apprenticeships that would solidify an individual's skills and increase employment marketability. The community college has also implemented a 'boot camp' for the trades and is focused on those unemployed with no skills. The boot camp provides an introduction to various trades with the goal of identifying a specific trade to pursue further through training and apprenticeship.

Support services and case management that are provided to RRH are customized for the families. This could include counseling, jobs assistance and household budgeting. Case workers develop an individualized service plan that will best assist the family achieve self-sufficiency upon existing government assistance programs. Case workers may include other service providers in the case management of the client, including school social workers, to ensure needs to school-age children in the household are enrolled and their needs are addressed.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Guam has permanent housing programs that provide housing and support services to chronically homeless individuals and families. The local CoC collaborates with service providers that provide support services to persons with disabilities who are typically homeless. The referrals are submitted to the programs that provide housing and they work hand in hand for housing placement and provision of support services. They are eventually referred to public housing and other programs such as the Housing Choice Voucher - Mainstream program and NED. The program participants are also assisted to obtain benefits - SNAP, SSDI, etc. Program participants are provided training and guidance to maintain housing

stability and assessments are done periodically to evaluate their progress.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

Guam has taken several steps to address the needs of public housing through planning and program implementation. During this reporting year schedules and project initiatives were affected by COVID19, with most of the reporting year operations were limited and restricted face-to-face interaction with PH Clients. During period October 2019 through March 2020, PSMs discussed and addressed projects which included issues such, but no limited to: PH Vacant Units are placed either under MOD for rehabilitation or renovated through GHURA Maintenance; GHURA Processed applicants to fill vacant units; Proposed Renter's 101 class, where Residents with first-time lease violations were required to attend course to provide residents with guidance on their lease, GHURA took this pro-active approach rather than terminate the lease; Proposed FSS Coordinators to have Renter's 101 class be offered to residents (still in discussion); Public Service partner, Manelu – offered resident service programs for both children and adults.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The Resident Advisory Board (RAB) is active in the formation and the discussions of the PHA's Five-Year, Annual, and Capital Fund Five Year Plans, to include and Amendments to these Plans. GHURA continues to promote the establishment of Resident Advisory Councils and Resident Associations. Guam offers its housing counseling services to individuals enrolled in the HOME program, as well as Section 8 and public housing tenants seeking guidance on tenancy, as well as assistance in transitioning from rental to home ownership. Public Service Activity, Manelu offered resident service programs for both children and adults prior to COVID19 pandemic restrictions on GUAM.

Actions taken to provide assistance to troubled PHAs

Not Applicable.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

During this program year, Guam completed an Analysis of Impediments to Fair Housing Choice which reviewed policies that impede fair housing choice. Guam also conducted a housing study to uncover gaps in housing and trends in the housing market. The findings from these two studies assisted Guam's (position) with adjustments to the Fair Market Rent, creating some relief to circumstances identified over the last decade. Additionally the housing study better identified gaps in housing and housing trends, creating a map for Guam's strategy for affordable housing. Guam continues to work in concert with the CoC and others to assist those individuals experiencing homelessness to obtain Guam identification cards for those who are certified homeless.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

In the program year, the CoC continued to

support programs that serve victims of domestic violence, and the Housing First program, which prioriti zes chronically homeless individuals with disabilities. CDBG's Public Services programs assisted the follo wing underserved populations: The Lighthouse Recovery Center provided treatment to men in recovery from substance abuse; the Family Services Center provided homeless prevention and rapid rehousing, e mergency and transitional housing; the Homeless Management Information System captured important data of persons served through various homeless programs; Manelu provided work readiness and famil y enrichment programs; and GALA provided youth empowerment programs.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

GHURA has exercised LBP procedures in place once a site has been determined the presence of LBP. All work involving the abetment or encapsulation is contracted by hazard waste contractor, as Lead based paint (LBP) shall be removed and disposed of in accordance to 40 CFR Part 745.227.

As such, disturbance/demolition/disposal of these work items. The construction debris must be performed in accordance with the OSHA lead standard for construction (29 CFR 1926.62) and US EPA hazardous waste regulations (40 CFR Parts 240-282). The OSHA lead standard includes requirements for worker training, medical surveillance, air monitoring, personal protective equipment, and hygiene facilities.

In addition, any waste generated from the disturbance of these surfaces may be regulated by the EPA as hazardous waste. It is recommended that a representative sample of the waste be analyzed for proper hazardous (or non-hazardous) characterization. If the waste stream is deemed hazardous, it must be

disposed of at an EPA-approved site. If the waste stream is found non-hazardous, it can be disposed of as construction debris. The contractor provides certification of LBP material disposal to GHURA.

Close out documents for LBP certification requirements are required. The contractor shall hire an independent third-party inspector to determine the presence (or absence) LBP and ensure the work is completed and free from LBP contamination. The independent third-party inspector shall be EPA-certified and licensed to conduct such activities pursuant of 40 CFR Part 745.227.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The number of persons and families living in poverty on Guam remains a concern to the govt and the community. Resources and actions taken by Guam to address poverty included committing funds to local organizations that provided direct and indirect assistance to low- and extremely-low-income families and special needs populations (including victims of domestic violence, adults with disabilities, and the homeless.) Services include housing-related assistance, case management and supportive services, job training and education, and other services. Guam also shares guidance and strategic direction to working groups and collaborative efforts who address veteran homel essness and homeless families.

Guam works in conjunction with community partners to address the goals of poverty reduction as stated in the current ConPlan. To achieve the stated goals, Guam has undertaken the following activities during the operating period by assisting low and moderate income individuals through the creation suitable living environments through the following:

- 1. Construction of the Salvation Army's Residential Treatment Center for Women in recovery whereby 51% of clients are income eligible as well as residential substance abuse treatment for men through the Lighthouse Recovery Center and outpatient services for both men and women including their families;
- 2. Jobs assistance and family enrichment programs offered through Manelu through the development of Workforce development assistance for youth and families, adult workplace mentorship and family literacy programs for youth and adults through Workplace Readiness Workshops, Family Literacy program and Job Placement Assistance.
- 3. Homeless prevention and rapid rehousing rental and utilities assistance are offered through the Salvation Army's Family Services Center;
- 4.Support organizations that aim to reduce and end homelessness: Provide housing and supportive services for chronically homeless, survivors of domestic violence and their children, and homeless individuals with disabilities. The following organizations provided such services: Guam Behavioral Health and Wellness Center's Guma Hinemlo, Catholic Social Services Y'Jahame Permanent Housing Program and Gai Animas program for DV survivors, GHURA's Housing First Rental Assistance Program provide housing for chronic homeless and their families, Guma Mami's Project Inayek to assist homeless adults

with disabilities who are victims of DV, and Sanctuary Inc., Guma Manhoben that provides transitional rapid rehousing and permanent housing to youth ages 16-24 including support services.

5. Guam also provides guidance and strategic direction to working groups such as WestCare Pacific Island SSVF and collaborative efforts to address veteran homelessness and their families. GHURA HCVP administers the HUDVASH project in coordination with Guam's US Veterans Affairs Office.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Guam's efforts to develop institutional structure with respect to affordable housing and homeless issues include membership in planning councils and various working groups. Specifically, Guam assists veteran groups to end homelessness, homeless individuals with disabilities, and survivors of domestic violence. Guam also participates in strategic planning of the CoC and assists with their annual gap analysis. Guam's CPD Division provides technical assistance training to CDBG, ESG and HOME subrecipients and prospec tive subrecipients, as well as to prospective applicants for LIHTC and the Section 108 programs. Internally, the agency dedicates resources to enhancing the skills of its staff through ongoing professional development and training. In the coming program year Guam looks forward to in person learning opportunities which will continue to cover; Environmental Review, homelessness, procurement training, Conflict of Interest, Ethics, Accountability and Transparency, Equal Employment Opportunity- Disability, Fair Housing and Conflict of Interest to name a few.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Guam continues to collaborate regularly with public and private entities to better address housing and community development initiatives. Organizations and institutions involved include the following: Catholic Social Services, Core Tech., Dept. of Public Health and Social Services, Guam Alternative Lifestyle Association, Guam Behavioral Health and Wellness Center, Dept. of Revenue and Taxation, Guam Legal Services Corp. – Disability Law Center, Guam Dept. of Parks and Recreation, Guam Police Department, Habitat for Humanity of Guam, Mayor's Council of Guam, Guam Mami, Micronesia Community Development Corp. (MCDC), Manelu, Micronesian Resource Center, Sanctuary Guam Inc., The Salvation Army, University of Guam, US Dept of Veterans Affairs, Victim Advocates Reaching Out and Westcare Pacific Island.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

Guam continues to address impediments to fair housing cited in the last program year, the lack of information and understanding of fair housing regulations. Despite COVID19 and restrictions to social distancing, Guam continues to address this as Guam's Fair Housing Coordinator provides guidance,

information and education to individuals seeking assistance with Fair Housing Issues. During this reporting period no formal complaints were filed. Due to COVID19 and Social Distance Guidance, all community-wide training had been suspended. Additionally, GHURA's Housing Counseling Agency experienced delays in program services due to the COVID19 pandemic.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Guam adheres to its Citizen Participation Plan which outlines the process for citizens to participate and comment on reports. During the reporting year, Guam had no substantial amendments to its Citizen Participation Plan. Guam's May 2019 amended in its Citizen Participation Plan enhanced and clarified participation and stakeholder involvement. Furthermore, those amendments restated noticing timelines, updated the required number of public hearings, and clarified the criteria for a substantial amendment. The amended and restated CPP also included an exception to the CPP, which would be in times of a disaster declaration. On September 17, 2021 & October 4, 2021 GUAM Published Notice to Public for comments on the PY2019 CAPER. No comments have been received.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

During the reporting year, Guam experienced set-backs and delays as the island shut down in the wake to COVID19. From March 2020 through to September 2020, Guam remained in a heightened state of Public Health Emergency (PHE) Readiness PCOR 1. From complete stay-home orders from March through late August, the island experienced shut downs in efforts to control the spread of COVID19 and address the safety of the entire community. Due to the Global pandemic effects on Guam, halts the islands economy and construction had affected all PFI projects and timelines projected. Moving forward Guam intends to continue driving proposed PFI projects forward, working through the new restrictions addressing safety and the on-going PHE. Many of the Public Service Activities experienced the same halts to activities due to the shut-down. GHURA has been working with those sub-grantees to address unspent funds due to the PHE and inability to administer programs.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

Not Applicable.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

Guam's HOME program implemented affirmative marketing actions primarily through social media advertising for this period. The two main platforms were Facebook and Instagram.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

Approximately \$22,282.27 in HOME program income was expended this program year.

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

Due to COVID19 Pandemic, Guam activity halted or remained at minimal operations due to island-wide stay-home Executive orders. LIHTC application period during this time has been postponed to current year. The LIHTC application period which is normally scheduled every two years was, during this time of Covid, postponed to the following year. LIHTC development slowed considerably as the developer contended with a superior number of challenges including mandated government shutdowns, labor shortages due to H-2B restrictions, a Covid outbreak in their workforce housing, substantial permitting and inspection delays resulting from limited availability of government regulatory organizations throughout the reporting period, and other setbacks.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

Not Applicable.

11. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

The CoC works closely with the ESG recipient on planning and allocation of funds for program activities. This includes how funds are allocated between rapid rehousing and homeless prevention, which is based on community needs, gaps assessment, and collaboration with other agencies. Guam refers to the CoC using the coordinated Entry System, including the Point In Time Count, ESG subrecipient submits the data to include in Action Plan activities and strategic planning. For example, the HMIS reports help infor m the Annual Action Plan and the upcoming ConPlan; the achievements of the CoC are reported in the CAPER. The CoC and ESG subrecipient continues its practice of conducting qualitative assessments on a quarterly

basis on client needs, housing barriers, and available resources. Program outcomes are also analyzed, a nd information gathered is used to inform future programs.

Construction Suspended

Government of Guam was fully operational for 51 working days in 2020.

For 195 days of the year 2020 Government of Guam offices were closed or operating at no more than 25% capacity.

For 71 days Government of Guam was operating at no more than 50% with strong recommendations to telework if possible.

For 4 Days of September 2020
Construction was completely shutdown and guidelines were placed on Contractors. In November 2020
Construction shutdown for a few weeks due to a COVID Cluster. DPHSS mandated mass testing. The demobilization and remobilization of laborers and equipment took weeks to resume.

Government of Guam was open for 27 days of the year 2020 but quickly shutdown again due to a large spike in positive cases. A stay-at-home-order was issued after the reopening of businesses.

	Joint Information Center		
JIC No.	Description	Status	Date Effective:
Joint Information Center - JIC Release No. 323	The Department of Public Health and Social Services has issued a directive relative to the suspension of all construction projects at close of business on Friday, September 11, 2020, until further directive from the DPHSS.	Suspended	9/11/2020
Joint Information Center - JIC Release No. 331	DPHSS Directive Authorizes All Construction to Resume.	Resume	9/15/2020
Joint Information Center - JIC Release No. 444	Joint Information Center - JIC Release No. 444 On November 5, 2020, the DPHSS identified a significant cluster of COVID-19 positive cases among the employees of a local construction company. On November 9, 2020, additional COVID-19 cases were identified among employees of another local construction company. Guam's construction workforce is housed in temporary workforce housing. These companies have worksites through the island, including on military installations, Government of Guam projects and local private sector projects. Several Construction companies work together on projects. The emergence of this cluster and the threat presented by the substantial additional cases pose a significant dangerto the public health of the construction workforce, industries associated with these projects, and the larger community. Immediate action is necessary to protect against further spread.	Suspended	11/14/2020
Joint Information Center - JIC Release No. 448	DHPSS Contractor Clearance Checklist Available: Construction companies and contractors on Guam can resume operations subject to meeting minimum requirements in the Department of Public Health and Social Services (DPHSS) Contractor Clearance Checklist. Construction companies and contractors requesting clearance must fill out the DPHSS Contractor Clearance Checklist and Attachment A. Subcontractors to Black Construction Corporation and Core Tech International are listed in Attachment B. The required forms are available for download.	Resume (Under Contractor Clearance Checklist)	11/15/2020

10-digit dialing begins next month

By John O'Connor john@postguam.com

Ten-digit dialing - entering the island's 671 area code before the local phone number - will be required late next month as Guam joins the nation in preparing to roll out the "988" hotline to the Suicide Prevention and Mental Health Crisis Lifeline.

The need for mental health services has been no more evident than during the pandemic. Just last month, the Guam Behavioral Health and Wellness Center saw calls to its crisis hotline jump as a new surge of COVID-19 cases took root.

By July 16, 2022, dialing 988 will route you to behavioral health services instead of having to dial the 1-800 national number or the local number for GBHWC.

Because 988 is already a prefix for some phone numbers on Guam, island residents must use 10-digit dialing so that the hotline can be implemented. This change will be required on Oct. 24 and affects all carriers on Guam.

While the deadline is still about a month away, residents can already make local calls using 10-digit dialing. Dialing local numbers without Guam's area code will no longer work after the October deadline.

Residents are advised to reprogram their phones and automatic dialing systems to utilize 10-digit dialing.

GTA Chief Operating Officer Andrew Gayle said fax machines, often used in clinics and insurance companies, will have to be enabled for 10-digit dialing.

GBHWC Director Theresa Arriola said all states and territories received a 988 planning grant to develop an implementation plan for the hotline rollout. Guam received about \$125,000 for the planning grant in February. The draft plan is due at the end of September but the deadline for the final plan is Jan. 21, 2022.

Joleen Respicio is the project director for the 988 state planning grant at GBHWC. The plan was developed alongside stakeholders involved in providing access and inclusion for at-risk groups, such as other 24-7 crisis call lines and emergency services.

Respicio said there are eight core planning areas, which were developed by the grantor, Vibrant Emotional Health, the administrator of the Suicide Prevention and Mental Health Crisis Lifeline.

These core areas include ensuring 24-7 coverage for all hotline calls, chats and text; identifying funding streams to support the call center; capacity building for the volume of calls that will come and providing follow-up services. Supporting operational, clinical and performance standards for answering calls; identifying key stakeholders and gathering feedback; ensuring systems are in place so that the call center has up to date local resource and referral listings; ensuring the call center can provide follow-up services; and ensuring that public messaging for the hotline is aligned with the national initiative, are also part of the plan.

When the 988 hotline is up next year and someone calls from Guam, they can expect their call to go through the central system and then be routed to the GBHWC call center.

The current GBHWC crisis hotline doesn't have chat or text capabilities yet, but the plan is to include chat and text for the 988 rollouts, as well as video for the future, according to Respicio.

Steve Aldrich Jr.

Drug case defendant methamphetamine. rearrested

By Nick Delgado nick@postguam.com

A man who was on pretrial release for a separate drug possession case was placed under arrest after police found

Steve Aldrich Jr., 33, was charged with possession of a schedulellcontrolledsubstance as a third-degree felony, along with a notice of felony committed on felony release, and family violence as a misdemeanor.

According to the prosecution in court documents, officers approached a parked car in Harmon with the suspect found inside and who appeared to show signs of a person "coming down from a methamphetamine high."

During a search, police found an undisclosed amount of meth, documents state.

Aldrich was also accused of

attacking a woman known to him in June, documents state.

In 2020, he was arrested on illegal drug and weapons charges and on separate charges of family violence and assault.

A Superior Court of Guam judge issued a warrant for his arrest last month.

On Guam, typhoons can reach our shores quickly and cause massive damage physically and economically. This September, participate in Typhoon Preparedness Month by making preparations.

STEP TWO: BUILD A KIT

During a typhoon, basic necessities like water, food and electricity may not be available to you. Creating an emergency supply kit with 3 days of non-perishable food and water, first-aid supplies, clothing, bedding, tools, and other essential items can keep you safe and more comfortable when a typhoon hits.

TO LEARN MORE ABOUT CREATING YOUR **OWN EMERGENCY SUPPLY KIT BY VISITING** WWW.READY.GOV/KIT.

NOTICE TO THE PUBLIC

Available for Public Review Guam's Consolidated Annual Performance And Evaluation Report (CAPER) For the Program Year 2019

The Guam Housing and Urban Renewal Authority (GHURA) announces the availability of Guam's Program Year 2019 Consolidated Annual Performance and Evaluation Report (CAPER) for public review

The CAPER outlines Guam's progress in achieving the goals outlined in the 5-Year Consolidated Plan 2015-2019 (ConPlan). The ConPlan prioritizes areas to be addressed with funds available from the U.S. Department of Housing and Urban Development, Office of Community Planning and Development -Community Development Block Grant (CDBG), HOME Investment Partnerships Grant (HOME), the Emergency Solutions Grant (ESG), and the Continuum of Care Program Grant for the period covering October 01, 2019 to September 30, 2020.

The CAPER will be available electronically on GHURA's website at www.ghura.org. If you would like to obtain a copy or require additional information, please contact Alicia P. Aguon, at 671-475-1316 or by email at apaquon@ghura.org.

GHURA is inviting the public to comment on the CAPER while exercising pandemic safety protocols and current mandated social distancing requirements. A virtual public hearing will be held on Monday, October 4, 2021 at 10am via ZOOM at Meeting ID: 994 7837 8713 Passcode: GHURA

Individuals or organizations wishing to comment on the CAPER are encouraged to do so by submitting written comments to GHURA drop box with notation of ATTN: Alicia P. Aguon. Written comments may also be submitted by email to apaguon@ghura.org or via facsimile at 671-300-7565. All comments must be received no later than 5 p.m. Monday, October 4, 2021.

Should you require special accommodations, please contact the Section 504 Coordinator Katherine Taitano, at 475-1322 or via email at katherine@ghura.org.

Japan could get boost if shoppers spend \$180B saved during pandemic

By Toru Fujiok Bloomberg

Now that Japan has lifted its latest state of emergency over the virus, the economy could get a major boost if shoppers splash out with the extra \$180 billion they saved while they were cooped up.

In place like the U.S. and the U.K., pent-up consumer demand has helped fuel strong recoveries, but, whether the flood gates will open quite as wide in Japan is an open question.

Japanese households are known for socking their money away and the country's seniors, in particular, tend to be ultracareful about spending because they worry about outliving their savings. Still, people such as 80-year-old Akira Yamada are itching to get out after more than 18 months in quasi-confinement.

"I'm ready to spend some," he said by phone from his house in Saga city, southwestern Japan. "I'm really looking forward to finally being able to drink and eat out with people."

What consumers choose to do as Japan lifts its fourth state of emergency Friday is likely to determine the strength of the recovery that incoming Prime Minister Fumio Kishida inherits, especially given that exports are slow-

ing amid global supply chain problems. Kishida has put increasing family incomes at the center of his economic agenda.

"I expect a fairly big boost from consumer spending," said economist Tatsushi Shikano at Mitsubishi UFJ Morgan Stanley. "With a new fiscal spending expected from Kishida, there is even an upside risk for Japan's economy."

Japan's households socked away a ton during the pandemic, with their financial assets hitting a record at the end of June. So-called "forced savings," money that couldn't be spent because of restrictions on activity, climbed to 20 trillion yen, or \$180 billion, amid the crisis, according to the Bank of Japan.

There are signs that pent-up demand may be materializing already. Sales of BMWs rose 15% through August this year, rebounding from a double-digit decline in the same period a year ago, according to the Japan Automobile Importers Association.

Some 93% of people 50 or older want to take at least one trip within a year of being vaccinated, a survey released in June by marketing company Yuko Yuko Holdings showed.

The BOJ's quarterly Tankan report on Friday showed hotels and restaurants see the outlook improving in coming months from rock-bottom levels.

An inoculation rate of around 60% has helped bring down infection rates and allowed authorities to lift the emergency, although bars and eateries still are being asked to close by 9 p.m.

Bank of Guam closing Chalan Piao branch in Saipan

Bank of Guam announced Friday that it will be closing its Chalan Piao location on Dec. 31, and streamlining Saipan operations under its Garapan branch, the bank stated in a press release.

The Chalan Piao branch opened 10 years ago to serve customers in

southern Saipan.

In the beginning of 2021, the bank embarked on its yearlong The Start of Something New campaign, promising to integrate personalized services with leading-edge technologies that deliver safe, secure and convenient access to its customers, the bank stated in its release.

In August, the Bank unveiled its new website, with a fresh, modern look using refreshed brand elements designed to complement its digital identity and accompanying technology, according to the release.

In July, the bank announced the rebrand of its California region branch to TASI Bank, a division of Bank of Guam, refining its business strategy to focus primarily on business-to-business financial services.

"Despite the undeniable growth in digital banking solutions, our customers are Familia, and while the closure of our Chalan Piao location may seem bittersweet, these are exciting times and we invite all our customers along with us on the next phase of our journey, each step closer to The Start of Something New," stated Joaquin P. L.G. Cook, president and CEO of Bank of Guam.

The bank will continue to roll out major announcements throughout the rest of the year, leading up to its 50th anniversary celebration in 2022, the bank stated in the release.
