

## **CR-05 - Goals and Outcomes**

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

Guam's has made modest, but important gains to address its Strategic Plan objectives and the timely start to and completion of action plan projects.

**Expand Affordable Housing and Expand & Provide Svcs to Homeless/Non-Homeless** The island continues to experience housing shortages across the income spectrum but felt most profoundly by low-income households. In so doing, hard decisions had to be made to ensure that best efforts continued down this path. CDBG funds approved for the Rehabilitation and New Construction – MTM Community Recreational Facility (2019) were reprogrammed in Py23 to support the acquisition and rehabilitation of Guam's first Drop In/Bed-For-A-Night Shelter. Guam initially sought design services, but the effort yielded no responses. A second procurement planning to seek design-build services is currently underway. The rehabilitation of five units in Talo'fo'fo has restored CDBG compliance and availability to eligible households. And the acquisition of a 21-unit Yigo complex will see new units available to HOME, CDBG, and ERA eligible renters in Py24. In a new effort, HOME program income funds were reprogrammed to provide additional funding for Guam's Homeowner Rehabilitation Loan Program as a new project in Py23. Guam has identified WestCare Pacific Islands to receive HTF funds that will be used to rehab a duplex and fourplex in Agaña Heights for use as affordable rental housing. Guam's temporary non-congregate Covid-19 shelter concluded operations after one last extension through Oct 2024. **Improve & Expand Comm Facilities & Improvements** The bid process for Guam's Eastern (Police) Substation was completed in Dec 2024, having completed procurement planning in late Py23. The market research for the purchase of personal protective equipment for the Guam Fire Dept has been completed and acquisition is expected in Py24.

**Table 1 - Accomplishments – Program Year & Strategic Plan to Date**

**Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

For the fourth year CAPER reporting for Guam’s CONPLAN 2020-2024, PY2023 shows progress in CDBG’s PFI Acquisition of Affordable Rental Units (AARU), the first CDBG Public Facilities & Improvement (PFI) project in the CONPLAN period. To date under the CDBG AARU Guam has acquired (3) multi-unit rental property sites all in line with Guam’s CONPLAN outlined in providing access to affordable rental units. Although acquisition of the (3) multi-unit sites were completed GUAM continues to track planning and coordination for phase II, the rehabilitation on the sites. Guam’s ability to acquire the units were successful due to the leveraging of funds with other federal programs such as the HOME Investment Partnerships Program and ERAII. Each AARU site required different considerations and planning with regard to the affordability and low-income populations. In addition to the AARU properties Guam continued to plan for the rehabilitation of the recently acquired Homeless Shelter. Plans for the building rehabilitation and infrastructure improvements to the shelter continued which included working with anticipated shelter operators, Office of Homeless Assistance and Poverty Prevention. Planning addressed the needs of operating the shelter and beds needed in order to open its doors and serve the population. Aside from the CDBG PFI projects, CDBG Public Services (PS) projects continued to progress through planned community programs and grant expenditures. Following completion of CDBG-CV funded programs, sub-recipients have been able to remain on the trajectory course to reach the community goals, yet remain current in processing grant expenditures.

Guam is working to input goals and enter projects that will automate the outcomes generated by the CAPER. The data in the above table has been updated to reflect the (PR03) outcomes. Guam is working to improve the data outcome and accomplishments to ensure that accurate reporting is captured and reported. Figures in the above maybe under reported. Questions regarding outcomes can be addressed to the [rpe@ghura.org](mailto:rpe@ghura.org) to gain further understanding. Please note other reporting outcomes below not reflected in Table 1 and Table 2.

### Narrative

CDBG Public Service participants for the period show 89% of recipients identifying as Native Hawaiian or Other Pacific Islanders. 100% of HOME participants identify as Native Hawaiian or Other Pacific Islanders. While Census 2020 data reflects 52% of the island's population (captured during the Census reporting) as "Native Hawaiian or Other Pacific Islanders alone or in combination".

ESG data is reflected in the CAPER attached for the reporting period.

### Narrative

For the reporting period Guam reports the Community Development Block Grant (CDBG) program resources made available \$3,185,755.00 with expenditures of \$6,512,696.65; for HOME Program resources made available \$1,256,171.00 with expenditures \$639,621.91. (For details of HOME Program Income received and expenditures for this reporting period please see section CR-50 HOME) For the Emergency Solutions Grant Resources Made Available \$263,963.00 with expenditures of \$363,255.04. The difference of available funds and expenditures for the programs is the draw from funds for previous year resources. The Housing Trust Fund program reported available resources of \$157,106.91 with \$0 expenditures; the zero expenditure during this reporting period can be accounted for in the next program year cycle. This PY year was continued to plan for the execution of the HTF leveraged rental units. As of the reporting period Guam was able to execute MOAs with WestCare Asia-Pacific who will administer the determined AARU properties for special low-income populations, following the completed rehabilitation of the indicated sites.

During this reporting period, Guam was able to bring back into compliance the CDBG Timeliness regulation, as of August 2, 2024. This has been a long standing issue for Guam as of 2020. It is Guam's continued effort to improve planning processes to account for the length of time to execute PFI projects. Guam continued to support training and TA to support staff in executing all projects allowing resources and expenditures in the future program years.

## Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Renaissance Rental Housing located in Talofof, Guam was reopened, providing affordable rental for 5-low income families. The 5 housing units were repaired using local funds to address long standing sprawling and other construction improvement needs. All units were renovated bringing the CDBG units into compliance with funding regulations.

GUAM's AARU acquired (3) multi-unit sites. Two of the three sites completed the acquisitions leveraging federal fund programs, the first CDBG and HOME and the second CDBG, HOME and Guam's ERA II funds. Two of the sites will use The Housing Trust Fund program funds to rehabilitate units for low-income and or special populations through GHURA's partnership with WestCare Asia who will operate the rental sites.

In addition to these types of program leveraging, Guam completed the sale of two affordable housing units within the HOME Investment partnerships program. This progress was reported in the previous year's CAPER report. For details please refer to the PY2022 CAPER.

**Discuss the difference between goals and outcomes and problems encountered in meeting these goals.**

Two (2) HOME Program projects were completed this program year. These projects were delayed to closing due to the Typhoon MAWAR. As reported in the PY22 CAPER Guam faced delayed completion/closing of (2) new construction affordable homes and have since been completed and sold to eligible low-income families.

Guam increases its facilities acquiring (3) multi-unit affordable rental properties, upon completion of rehabilitation plans this will bring online 27 affordable rental units through the CDBG AARU Project (2020).

Guam was able to bring online (5) affordable rental units located in Talofofo, in addition (1) of the AARU units remained occupied by eligible families. This allowed CDBGs assistance for affordable rental to assist (6) families in the year.

**Discuss how these outcomes will impact future annual action plans.**

The progress toward Guam's affordable housing goals aims to close the gap on access to Guam's unaffordable housing gap. Guam will continue to work on projects that support this effort.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

**Narrative Information**

The actual figures in the above Table-13 reflecting zero does not justify Guam’s progress toward addressing the need of affordable housing. In year one of Guam’s 2020-2024 ConPlan Guam proposed the Acquisition of Affordable Rental Units (AARU). The proposed project successfully carried out three activities which acquired multi-units in three different sites in Guam. The acquisition of the units with CDBG funds (in some sites leveraged with HOME and other federal funds (Emergency Rental Assistance 2, ERA2) allowed GHURA to progress to its year-1 proposed goal. Reporting successful progress of acquisition of such units is not reflected due to the constraints of the reporting system. Through guidance by Guam’s field office, Guam remains in constant reporting to the field office of the steady progress to the next phase of rehabilitation of these units. Actual figures will be reported during such reporting periods once sites have completed the rehabilitation phase and affordable rental units are occupied by eligible families.

## **CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)**

**Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The local CoC conducts street outreach which primarily focuses on one goal: that of supporting persons experiencing homelessness to be rapidly rehoused and eventually obtain permanent housing. Outreaches are focused on connecting individuals to permanent housing solutions. Outreach logs and journals are maintained, and data is entered into the HMIS database.

Street outreach is conducted by project staff and volunteers at least once a week. The staff maintains an outreach log/journal to compile information about individuals/families who engaged and the information is entered into the HMIS database.

An assessment is done using VI SPDAT to determine the individual/household needs. When the homeless individual/household signs the HMIS form that gives consent to release their information, staff then shares relevant client information for referrals. The Coordinated Entry System staff make the referrals to appropriate programs that will meet their needs.

All interactions involving a homeless individual/household are entered in the Coordinated Entry System (CES). Through CES, service providers will respond to facilitate housing placement options and access to support services through case management.

Direct referrals may be initiated and followed up with providers of specific target populations. Case management is provided to program participants by review of the case file and ensure documentation is complete or if additional documents are needed.

Staff conducts follow up with clients to ensure any additional needs or services are addressed. Outreach

workers usually conduct street outreach in the villages identified during the Point-In-Time count with the highest number of unsheltered or street homeless.

The CoC Incorporated Trauma-Informed Care (TIC) in outreaches. TIC is an essential approach when engaging with individuals experiencing homelessness, particularly those who are unsheltered. Homelessness is often intertwined with traumatic experiences such as abuse, neglect, or the challenges of survival on the streets. Integrating TIC principles into outreach ensures that services are delivered in a way that acknowledges and minimizes the impact of trauma, fostering trust and safety for clients. Coordination with other service providers to reduce the need for clients to recount their stories multiple times, which can retraumatize them, are being practiced. Outreach workers clearly explain consent processes and ensure individuals feel safe in sharing their information.

### **Addressing the emergency shelter and transitional housing needs of homeless persons**

The Coordinated Entry System is utilized for referrals. Guam CoC also practices the “No Wrong Door Policy.” Referrals are sent for Emergency Solutions Grant (ESG) Rapid Rehousing (RRH) and Homeless Prevention (HP) and Emergency Housing Voucher (EHV). All Continuum of Care (CoC) funded programs also receive referrals from CES. If a person has a disability, referrals are done to appropriate programs that provide housing to persons with disabilities. Chronic homeless individuals/Persons with disabilities, elderly and frail, families with children are prioritized for placement. The goal is rapid placement of households with long term of homelessness.

Guam will increase the rate that homeless persons residing in emergency shelter (ES) which is locally funded, transitional housing (TH), and rapid rehousing (PH-RRH) exit to permanent housing destinations by providing case management to help families locate/secure housing and to address barriers to maintain housing.

The homeless persons with disabilities who need longer support from mental health and substance abuse service providers will be referred to Permanent Supportive Housing programs such as Housing Choice Voucher’s Mainstream Program and Near Elderly Disabled, Elderly and/ or Public Housing.

For persons without disability but cannot afford to rent due to limited income or at risk of becoming homeless the CES refer to the ESG Rapid Re Housing or Homeless Prevention if they have arrears in rental or utilities. For those who lack the necessary resources to obtain housing on their own, the CoC will work towards placement in subsidized housing such as EHV, HCV or public housing. Individuals and families are also connected to mainstream services to include job training, job search, education services, and application for SSDI. The CoC will increase the rate of homeless persons in permanent housing projects to achieve housing stability and/or exit to more permanent housing destinations such

as HCV or Public Housing by ensuring that PSH participants continue to receive supportive services. Rapid response teams are deployed to address housing disruptions such as those who are experiencing relapses. Program staff also works closely with landlords to avert evictions. Projects work to eliminate barriers to housing stability by linking participants to job training/placement or application for SSDI. If termination is inevitable, projects will exhaust all options for permanent housing placement. The CoC's Strategic Planning Committee and GHURA as the Collaborative Applicant (CA) of the CoC will be responsible for overseeing the CoC's strategy to increase the rate households retain their permanent housing or exit to permanent housing destinations. By combining immediate relief with targeted, supportive services and long-term housing strategies, Guam can more effectively meet the emergency shelter and transitional housing needs of homeless individuals and families, fostering a pathway to stability and self-sufficiency.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

Guam has Homeless Prevention (HP) programs which aim to assist individuals and families who are at risk of becoming homeless, these programs aim to provide financial assistance for rental and utilities arrears. Other support services and case management that are provided are adapted for the families. This could include counseling, jobs training assistance and household budgeting. Caseworkers develop an Individualized Service Plan (ISP) that will best assist the family achieve self-sufficiency with focused goals to avoid being homeless again. Caseworkers may include other service providers in the case management of the client, including school social workers, to ensure that the needs of school-age children in the household are addressed. The ones who are employed are supported to retain employment by providing other support services. If housing is subsidized and stable, the individual is connected to mainstream benefits to supplement their income. Some service providers encourage clients to attend job fairs to obtain jobs, in addition to direct job search. The Department of Labor American Job Center has also redesigned skill training opportunities through apprenticeships that would solidify an individual's skills and increase employment marketability. The Guam Community College (GCC) has also implemented a 'boot camp' for the trades and is focused on those unemployed with no skills. The boot camp introduces various trades such as construction and plumbing with the goal of identifying a specific trade to pursue further through training and apprenticeship. Additionally, GCC partnered with employers to fill the positions critical to military buildup. The Employment Empowerment Initiative helps in educating, inspiring & empowering Guam's youth, and families to change their lives for the better and eventually be self-sufficient.

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

<p dir="ltr"><span>Guam commits to the Housing First approach with emphasis on the following: 1) housing placement rates, 2) prioritizing unsheltered clients for housing, 3) prioritizing persons with little to no income & 4) housing retention. During the FY 2024 CoC competition, 100% of CoC funded projects are using the Housing First Approach that prioritize rapid placement and stabilization in permanent housing and do not require service participation or preconditions of program participants. This process expedites the transition from the streets to permanent housing and independent living, including shortening the period that persons experiencing homelessness to access permanent housing programs through the CoC's permanent supportive housing and eventually referred to public housing, Housing Choice Voucher's NED, and Mainstream programs and HUDVASH for veterans. The provision of case management helps to improve the homeless situation by assisting them to apply for mainstream benefits and services. All homeless providers and community partners who incorporate case management services within their respective organization includes a process for connecting unemployed or low-income clients to mainstream benefits such as TANF, SNAP, Medicaid, and state-funded Medically Indigent Program a state funded health insurance, and coordinated with the Social Security Administration for eligibility due to age or disability. These resources serve to provide financial assistance for basic needs and medical needs as other services are navigated. Caseworkers generally have primary responsibility for initiating this connection, including assisting to obtain documents necessary to establish eligibility and assisting in completing the application form. For individuals who may be ineligible for federally funded mainstream benefits, the Social Worker/Caseworker assists to connect the individual to state-funded or community-based services. Community outreaches which often include an array of service providers has been effective in reconnecting the homeless to services. The welfare benefits and support services help the homeless to attain housing that will prevent them from becoming homeless again. </span></p><p dir="ltr"><span> </span></p>

## **CR-30 - Public Housing 91.220(h); 91.320(j)**

### **Actions taken to address the needs of public housing**

The Emergency Rental Assistance (ERA) Program, administered by the Department of Administration (DOA) is in cycle 6 and remains open to date. The ERAP was expanded to provide broader rental and utility assistance fostering housing stability throughout Guam's communities. Most Public Housing residents participating in the program have reached their maximum assistance however, few families still submit continuance. GHURA's Public Housing Management continues to encourage residents to pursue program participation for rental and utility payments. AMP Managers work with families in timely submission of required documents; rental counseling and if appropriate, utilize repayment plans.

In May 2023, Guam was hit by Typhoon Mawar, causing island wide power outages and limited government services. GHURA's Management team implemented temporary policies to assist Public Housing applicants by providing extended timelines for submission of required documents. The policy was to prevent delays in housing families but also assisted GHURA in meeting occupancy standards. The extended timelines for families remain in effect today.

To better serve our Public Housing residents, a survey was developed and distributed to our residents to obtain a better understanding of their interests and/or needs. The outcome revealed that residents were interested in ensuring their children were up to date with immunizations to ensure enrollment in school. As a result, there were coordination activities with the Department of Public Health and Social Services (DPHSS) for Health Fairs.

GHURA's Public Housing Management team continues to promote community engagement with private and non-profit organizations throughout the year. Residents are provided the opportunity to participate in employment workshops, health fairs, early childhood; after school programs for youths; financial literacy training and more. GHURA will continue to promote on-going opportunities for our families.

### **Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

Critical areas of concern for GHURA's Public Housing Management team, include educational opportunities for our residents in managing the day-to-day care of their unit needs, housekeeping and

other lease requirements to ensure continued program participation. As a result, the first of many Renters 101 courses was held this year for recommended families. Although targeted families are identified for the initial sessions, the plan is to expand the service to all residents to ensure their continued participation in the program.

**Actions taken to provide assistance to troubled PHAs**

GHURA is Guam's only Public Housing Authority. Guam is not a troubled PHA.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

**Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

Guam continues to work with the CoC and others to assist those individuals experiencing homelessness to obtain Guam identification cards for those who are certified homeless.

During this reporting period Guam maintained its course of action to acquire more affordable rental properties for low/moderate income families. These actions are still on-going at the end of this reporting period, with regard to the rehabilitation construction of the acquired affordable rental properties. Upon completion of, in the next year, Guam hopes to report 21 new affordable rental units in Yigo and additional 6 in Agana Heights.

GHURA moved to accept American Rescue Plan funds in effort to acquire and develop more affordable housing and Guam's new medical hospital.

GHURA's Executive Director and Deputy Director occupy roles on several committees whose companion objectives are to address the impacts of regulatory or policy on affordable housing (and indeed housing overall). A planned housing summit in January 2024 will include the discussion of legislative and executive branch proposals to address barriers and impediments to housing development.

## **Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

Guam and the

CoC continued to support programs that serve victims of domestic violence, and the Housing First Rental Assistance program, which prioritizes chronically homeless individuals and families with disabilities. The CoC practices the Housing First approach and no wrong door policy.

CDBG's Public Services programs assisted the following underserved populations: The Lighthouse Recovery Center provided treatment to men in recovery from substance abuse; the Family Services Center provided homeless prevention and rapid rehousing, under Emergency Solutions Grant; the Homeless Management Information System captured important data of persons served through various homeless programs; Manelu provided work readiness and family enrichment programs. Although plans in place continuously supported GUAM's proposed projects, efforts continued toward goals identified in GUAM's Annual Action Plan.

### **Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

GHURA continues to exercise LBP procedures in the same manner it has previously reported. During project planning, meetings for prospective sites regulations are reviewed to ensure safety and compliance.

Planning and procedures are in place to determine if a site has the presence of LBP. All procurement and proper safety planning regarding the work involving the testing, abatement or encapsulation is contracted by the proper authorities and a hazard waste contractor. Staff is reminded and educated that Lead Based Paint (LBP) shall be removed and disposed of in accordance with 40 CFR Part 745.227.

In addition, any waste generated from the disturbance of these surfaces may be regulated by the EPA as hazardous waste. It is recommended that a representative sample of the waste be analyzed for proper hazardous (or non hazardous) characterization. If the waste stream is deemed hazardous, it must be disposed of at an EPA approved site. If the waste stream is found nonhazardous, it can be disposed of as construction debris. The contractor provides certification of LBP material disposal to GHURA. Closeout documents for LBP certification requirements are required. The contractor shall hire an independent third party inspector to determine the presence (or absence) of LBP and ensure the work is completed and free from LBP contamination. The independent third-party inspector shall be EPA certified and licensed to conduct such activities pursuant of 40 CFR Part 745.227.

For those program years, GHURA had performed all necessary LBP testing on any site prior to NTP or work on such site. Determination of no presence of lead at these sites were reported findings.

In this reporting year Guam completed Risk Base Technical Assistance on this subject matter ultimately ensuring formality and uniformity locally in line with national standards. A new LBP procurement, checklist and policy is available upon request.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

The number of persons and families living in poverty on Guam remains a concern to the government and the community. Resources and actions taken by Guam to address poverty included committing funds to local organizations that provided direct and indirect assistance to low and extremely low income families and special needs populations (including victims of domestic violence, adults with disabilities, and the homeless.) Services include housing related assistance, case management and supportive services, job training and education, and other services. Guam also shares guidance and strategic direction to working groups and collaborative efforts who address veteran homelessness and homeless families. Guam works in conjunction with community partners to address the goals of poverty reduction as stated in the current ConPlan.

### **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

Guam's efforts to develop institutional structure with respect to affordable housing and homeless issues include membership in planning councils and various working groups. Specifically, Guam assists veteran groups to end homelessness, homeless individuals with disabilities, and survivors of domestic violence. Guam also participates in strategic planning of the CoC and assists with their annual gap analysis. Guam's CPD Division provides technical assistance training to CDBG, ESG and HOME subrecipients and prospective subrecipients, as well as to prospective applicants for LIHTC and the Section 108 programs. Internally, the agency dedicates resources to enhancing the skills of its staff through ongoing professional development and training.

GHURA is a standing member of the Guam Homeless Coalition and the Guam Developmental Disabilities Council Advisory Cmte. GHURA's Deputy Director Co-Chairs the Guam Civilian-Military Subcommittee on Housing. GHURA's financial management staff are members of the Association of Government Accountants (AGA). GHURA staff of S8, PH, CD, AE, and RPE in Py23 have been certified in NSPIRE. GHURA is increasing the number of staff conducting environmental review assessments. A pair of CD staff attended formal Building HOME training in Py23. RPE and CD attend monthly timeliness meetings with HUD's Senior CPD Representative and the quarterly CPD Coordinator's Meetings. RPE staff have attended in-person Written Agreements, Building a Monitoring Plan, CoC and ESG training as of December 2024.

From May 2023 to May 2024, GHURA completed a series of policy and SOP updates and staff training to improve its management of fair housing issues. This process culminated in the successful completion of the terms of a Conciliation Agreement/Voluntary Compliance Agreement overseen by the HUD FHEO.

### **Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

Guam continues to collaborate regularly with public and private entities to better address housing and community development initiatives. Organizations and institutions involved include the following: Catholic Social Services, Core Tech., Dept. of Public Health and Social Services, Guam Alternative Lifestyle Association, Guam Behavioral Health and Wellness Center, Dept. of Revenue and Taxation, Micronesia Legal Services Corp.; Guam Legal Services Corp.- Disability Law Center, Guam Dept. of Parks and Recreation, Guam Police Department, Mayor's Council of Guam, GUMA Mami, Manelu, Micronesian Resource Center, Sanctuary Guam Inc., The Salvation Army, University of Guam, US Dept. of Veterans Affairs, Victim Advocates Reaching Out and WestCare Pacific Islands. The CoC has other programs where eligibility isn't based on being a victim of domestic violence or sexual assault; for instance, Guma Manhoben that serves youth or Y Jahame that serves individuals/families with priority given to those with the longest histories of homelessness. In addition to these partnerships with the community other programs that addressed the community preparation and response to COVID19

were supported through this reporting period.

**Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

The Coordinator fields individual inquiries from the public, GHURA staff and others seeking guidance or information on the nature of Fair Housing coverage, the protected classes, assistance to file complaints, and options on how to file complaints. During this reporting period no formal complaints were filed with the Fair Housing Coordinator/ Guam. Training was planned for the third quarter of the reporting period, however, unexpected circumstances prevented Guam/GHURA from fulfilling them. Training is planned for the coming program year. Future training is largely expected to be conducted online, in keeping with reduced contact protocols established and improved since the onset of the Covid pandemic.

Guam continues to address impediments to fair housing, lack of information and understanding of fair housing regulations. Guam's Fair Housing Coordinator schedules and arranges Fair Housing basic training for GHURA staff, organizations, and landlords. Organizations include service organizations providing housing and housing assistance (search and placement) to Guam's homeless. Property managers of developer-assisted housing through the Low Income Housing Tax Credit Program and island real estate professionals are also routine participants in Fair Housing training.

## **CR-40 - Monitoring 91.220 and 91.230**

**Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

## **Citizen Participation Plan 91.105(d); 91.115(d)**

**Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

Guam adheres to its Citizen Participation Plan which outlines the process for citizens to participate and comment on reports. During the reporting year, Guam had no substantial amendments to its Citizen Participation Plan. Public Comment for this CAPER is published from November 11, 2024 through December 12, 2024. Upon request this report can be provided to Limited English Proficient persons (LEP) speaking languages or people with disabilities. Request accommodations for languages other than english, including information for persons with disabilities on accessing virtual meetings please reach GHURA's Research, Planning, and Evaluation Division at 671-475-1322 or rpe@ghura.org. The public hearing for comments is scheduled for November 26, 2024 at 10:30AM. This section will be revised to include comments following the comment period after December 12, 2024. Please refer to attachments for Citizen Participation records.(11.10.2024)

REV. 12.13.2024: This section has been updated on December 13, 2024 to report that the Authority has concluded its CP process to include a 30-day comment period and a public briefing. During this period no comments were received.

## **CR-45 - CDBG 91.520(c)**

**Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.**

During the reporting year, Guam continued to administer and close out remaining CV funds among the various Public Service Activities. This program year Guam continued to work through identified increased costs of those public facilities projects awarded over the current CONPLAN. Factors the shutdown due to COVID, Labor, whereas materials far exceeded the initial contract prices or were just not available. These issues capped with the skilled labor shortage made for a very challenging period for both the Authority and its need to address the community need and the contractors tasks to execute projects. During this program year the Agency faced many procurement issues which ultimately factored the delay in award or progress of such PFI activities. Guam continues to focus on BABA requirements and allowable waivers to assist in continuing progress with the new construction.

Following the 2023 Typhoon MAWAR which exacerbated the already slowed progress of many of the CPD program activities. This disaster required Guam to reassess its projects and viable construction capacity and determined the reprogramming of funds to Acquire and Rehabilitate a commercial storage building into a Public Facility & Infrastructure project, the Acquisition of Homeless Shelter. Planning and coordination focused on the rehabilitation of acquired structures to allow for use as a drop in homeless shelter.

Additionally, Guam improved its policies and procedures through the RBTA with HUD in July 2023, this effort will assist Guam in addressing changes in future experiences.

**Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?**

No

**[BEDI grantees] Describe accomplishments and program outcomes during the last year.**

## **CR-50 - HOME 24 CFR 91.520(d)**

### **Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations**

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

From July 29 to August 2, 2024, Guam was provided with Risk-based Technical Assistance (RBTA) for all program staff. The RBTA allowed guidance to key staff to address and resolve past monitoring findings, improve performance and strengthen program execution.

GHURA's HOME Program was monitored for compliance by the HUD Honolulu Field Office in June 2023. Actions taken to address and ensure compliance, monitor and report on the accomplishments were discussed and strengthened.

Guam worked to close monitoring deficiencies that were addressed in the HUD FY2024 Risk-based Technical Assistance September 27, 2024, or continue to work with the field office through the close of the program year.

Additional reporting for monitoring, in February 2023 HUD ACA Report HUD identified rental housing activities for which Guam needed to conduct on-site inspections. These activities include five (5) completed HOME rental housing activities still within their HOME affordability periods. Guam needs to conduct on-site inspections every three (3) years on rental housing activities during the affordability period. Technical assistance is ongoing as-needed. Having completed training on Building a Monitoring Plan, RPE staff will incorporate HOME rental and CDBG properties into an SOP. AE will conduct the physical inspections, RPE the programmatic.

Upon the completion of the rehabilitation of the Mangilao complex, RPE staff completed the training for Isla Apartment property management staff in Py23. Caridad Social Service continues to operate the Mangilao and Mongmong Caridad Apartment facilities serving low income and persons with disabilities.

### **Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)**

To boost awareness and engagement, a comprehensive affirmative marketing campaign was launched

targeting diverse community sectors. The strategy included a blend of social media, hard copy materials, emails and networking with community partners.

Press Release and social media: The campaign utilized platforms like a radio and print press release, Facebook and Instagram to reach a broad audience. Creative posts, eye-catching graphics, and engaging content were designed to highlight the programs and invite community participation.

Hard Copy Materials: Flyers were distributed to key local businesses and organizations. These included churches, mom-and-pop stores, and hardware stores. The materials featured clear, impactful messaging and were designed to capture attention quickly. They were hand-delivered and posted in some establishments for maximum reach.

Website and Email Flyers: The website has been updated and program application is now online. The email campaign targeted government offices, the Mayor's Council of Guam and community groups. The content emphasized the campaign's goals and provided easy-to-follow instructions for participation.

Networking - Continual meetings with community partners are held to promote new program designs and explore additional forms of assistance that could be integrated with existing programs. Meetings include lenders, government and federal agencies.

Overall, the multi-channel approach ensured a broad and effective reach, engaging a wide array of community members.

Translation of all materials and other assistance to provide information on such marketing is available, as inquired. Additionally, Guam has recognized conducting affirmative marketing to attract under-represented protected class groups, analyze application and participation rates by race, ethnicity, gender of head of householder and disability to determine if additional affirmative marketing is needed. This has been addressed in the recent monitoring close out. Guam is working to create processes to capture and report on the number of affirmative marketing actions conducted annually.

**Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics**

For this CAPER reporting period \$0 program income was drawn (during the period 10.01.2023 to 09.30.2024). Total PI report at the start of the PY was \$1,759,268.59 with funds received during this period reported at \$177,912.87.

**Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)**

GHURA's HOME Program and LIHTC Program continues to foster and maintain affordable housing by providing affordable units for rent and/or purchase.

**HOME Program:**

HOME programs were redesigned to better support first-time homebuyers and existing homeowners. This redesign was driven by the need to increase subsidies for HOME eligible applicants as a result of rising housing market conditions. Additionally, the Housing Trust Fund (HTF) and HOME American Rescue Program (HOME ARP) have been launched through an agreement with WestCare Pacific Islands. The HTF agreement allocated both the 2022 and 2023 HTF funds, along with a commitment of funds from the 2020 HOME Investment Partnerships Program. HOME ARP has allocated the entire award of \$3,800,000.00.

**The following local programs are reported:**

Renewal Affordable Homes program was redesigned to offer a total of 30% subsidy off purchase or build prices. This subsidy is a 10% increase for the program. This first time Homebuyer funded by the HOME Investment Partnerships Program closed 2 families for this period. In addition, 3 families are in process for a purchase of a home partnering with USDA. Marketing efforts resulted in over 200 applications within a 3-month time frame for this period. The annual monitoring for this program confirmed principal residence for 60 units assisted with HOME funds. The program is processing 2 units for foreclosure which will be renovated and sold to HOME eligible families. Lastly, 22 mortgages initially financed with HOME funds under Habitat for Humanity of Guam were processed to transfer the servicing to GHURA.

Homeowner Rehabilitation This program was redesigned to offer increased subsidies to HOME eligible families and a deeper subsidy for families less than 50% area median. A total of 5 families are currently being reviewed for the period.

Housing Trust Fund Agreement executed June 17, 2024. The program will commence with a 4-unit apartment complex in Agana Heights as its first identified project. The funds will be used for both the renovation and operation of the complex, which will support households with incomes at or below 30%

of the area median income.

HOME American Rescue Program Agreement executed July 11, 2024. The funds under this program have been allocated to WestCare Pacific Islands. A project has not been identified. The program will provide additional rental units to assist veterans as well as other qualifying populations.

LIHTC Program:

In late 2023, Summer Vista completed construction of 96 affordable housing units and all units have been placed in service as of 2024. UPCS and compliance monitoring were also conducted in 2023 and 2024, the following properties were inspected: Ironwood Heights I and II, Ironwood Glen, Summer Town Estates and Ironwood Villa Del Mar. Also in mid-2024, the LIHTC application cycle was initiated with the process to be completed by December 2024.

## CR-56 - HTF 91.520(h)

**Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.**

As stated in section CR-50, the Housing Trust Fund Agreement executed June 17, 2024. The program will commence with a 4-unit apartment complex in Agana Heights as its first identified project. The funds will be used for both the renovation and operation of the complex, which will support households with incomes at or below 30% of the area median income. \*Accomplishment reporting for this project will be reported in the next reporting period, concurrent to the project timeline and reporting requirements.

Relative to HTF, GHURA will ensure compliance with VAWA Reporting, which will address VAWA reporting on emergency transfers requested pertaining to victims of domestic violence, dating violence, sexual assault, or stalking, including data on the outcomes of such request.

**NOTICE TO THE PUBLIC**  
 Available for Public Review & Comment  
**Guam's Consolidated Annual Performance and Evaluation Report (CAPER) For the Program Year 2023**

The Guam Housing and Urban Renewal Authority (GHURA) announces the availability of Guam's Program Year 2023 Consolidated Annual Performance and Evaluation Report (CAPER) for public review and comment. In accordance with 24 CFR § 91.520 this performance report includes the performance activities described in the Program Year 2023 (PY2023) Annual Action Plan (AAP) or other concurrent activities with Guam's 2023-2024 Consolidated Plan.

The PY2023 CAPER describes the resources made available, the investment of available resources, the geographic distribution and location of investments, the families and persons assisted, the actions taken to affirmatively further fair housing, and other actions indicated in the AAP during this reporting period. ### GVB brings CHamoru flavors to Seoul at ‘Taste of Guam Night’

**Pacific Daily News**

The Guam Visitors Bureau brought the flavors of CHamoru cuisine to Seoul with “Taste of Guam Night,” an exclusive culinary showcase held on Nov. 13 at The Class Chongdam. GVB said in a Nov. 21 press release.

GVB said the event celebrated the rich flavors, techniques, and traditions of CHamoru cooking, offering over 120 distinguished guests an immersive journey into Guam’s gastronomic heritage.

Adding star power to the evening were acclaimed Korean chef Choi Hyun Seok, renowned for his appearance in Netflix’s “Culinary Class Wars,” and actor Baek Sung Hyun, the master of ceremony.

GVB said it featured internationally renowned chef Peter T.C. Duenas, owner of Meskila CHamoru Fusion Bistro, and chef Darwin Arzola to showcase Guam’s culinary excellence.

Guests indulged in an array of CHamoru dishes, including two variations of kelaguen (fish and shrimp), CHamoru BBQ, fried whole fish (kadiyu style), smoked pork, red rice, a tropical-inspired

shrimp burger, and sweet treats like boñelos aga’ and latiya, GVB said.

“Chef Duenas captivated the audience with a live demonstration of shrimp kelaguen, sharing the cultural roots and history behind the dish,” GVB added.

Eun Ho Sang, chairman of the GVB Korea Marketing Committee, was among those in attendance, along with media professionals, key travel industry partners, and social media influencers.

“This event was a meaningful opportunity to introduce CHamoru cuisine to the Korean market,” GVB’s Eun said in a statement.

“Through initiatives like the ‘Taste of Guam’ project and the recent launch of the Delicious Guam F&B Guidebook, we’ve been able to highlight Guam’s culinary traditions and position the island as a unique destination for food and culture.”

### Glass art workshop fundraiser on Dec. 14

**Pacific Daily News**

Artspace Gulhaan, a nonprofit organization dedicated to promoting arts education and removing barriers to creativity, is hosting “Tis the Season for Mosaics,” a hands-on glass art workshop fundraiser on Dec. 14.

Led by mosaic artist Mark Murer, participants will create their own latte stone-inspired mosaic piece while supporting Artspace Gulhaan’s mission to empower Guam’s creative community.

The workshop will be held at the Guam Council on the Arts and Humanities Agency, CAHA, at DNA Building, 2nd Floor, 238 Archbishop FC Flores Street, Hagåtña from 9 a.m. to 12 p.m. on Saturday, Dec. 14.

This workshop is open to participants 18 years and older, with limited seating to ensure an engaging and guided experience.

The cost is \$100 per participant.

This includes a latte stone-shaped wooden artwork board (9.5”w x 14”h), all necessary mosaic materials and tools, and light refreshments.

Participants can participate in crafting vibrant mosaic art pieces and complete latte stone-inspired mosaics.

Tickets are available at [mosaic-guam.eventbrite.com](http://mosaic-guam.eventbrite.com).

Early registration is encouraged as space is limited.

Proceeds from this event will directly support Artspace Gulhaan’s mission to provide accessible arts education and foster cultural and creative collaboration.

Artspace Gulhaan envisions a vibrant community where artists and residents alike can explore and celebrate Guam’s artistic and cultural heritage.

## Annual Performance Report HOME Program

U.S. Department of Housing  
and Urban Development  
Office of Community Planning  
and Development

OMB Approval No. 2506-0171  
(exp. 09/30/2023)

The reporting burden for this collection of information is estimated to average 2.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it has a valid OMB control number.

The HOME statute imposes a significant number of data collection and reporting requirements. This includes information on assisted properties, on the owners or tenants of the properties, and on other programmatic areas. The information will be used: 1) to assist HOME participants in managing their programs; 2) to track performance of participants in meeting fund commitment and expenditure deadlines; 3) to permit HUD to determine whether each participant meets the HOME statutory income targeting and affordability requirements; and 4) to permit HUD to determine compliance with other statutory and regulatory program requirements. This data collection is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act or related authorities. Access to Federal grant funds is contingent on the reporting of certain project-specific data elements. Records of information collected will be maintained by the recipients of the assistance. Information on activities and expenditures of grant funds is public information and is generally available for disclosure. Recipients are responsible for ensuring confidentiality when public disclosure is not required.

This form is intended to collect numeric data to be aggregated nationally as a complement to data collected through the Cash and Management Information (CMI) System. Participants should enter this reporting period in the first block. The reporting period is October 1 to September 30. Instructions are included for each section if further explanation is needed.

**Step 5: Project Outcomes**

*Project outcomes are required for all CAPERS where the program year start date is 7-1-2021 or later. This form replaces the narrative in CR-70 of the eCon Planning Suite.*

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: "Describe performance standards for evaluating ESG."

GHURA confers with the Guam Homeless Coalition regarding the performance standards for activities funded under the ESG program. Assessments include how well the ESG programs use the HMIS system to produce uniform reports for all prime recipients and its consistency with the Consolidated Plan, Annual Progress Report, and Annual Action Plan. The CAPER/SAGE also provides a framework to track ESG performance. Other general performance standards are documented such as the unduplicated numbers of persons or households to be prevented from becoming homeless, the unduplicated number of persons or households assisted from emergency shelters/streets into permanent housing, race, ethnicity, age, amount spent per subrecipient and their timeliness of expenditures will be reported by HMIS and GHURA. Also reported are other assessments such as what whorled using HUD funds, the most processing needs for clients, barriers to housing, the connection to other mainstream services and resources and outcomes for families and individuals upon completion of a program. Additionally, the Coordinated Entry System (CES) provides insight into determining the ESG and CoC's effectiveness in addressing the waitlist for homeless who are seeking housing. Guam utilizes the ESG to assist homeless families who may not qualify for any of the CoC funded programs. One of the conditions of the CoC funded program is the requirement for a head of household to have a disability. Persons fleeing domestic violence, however, are exempt from the disability requirements. Under the ESG program, homeless persons do not have to meet any disability requirements; however, those who are assisted must show reasonable efforts to maintain their housing after their assistance has ended.

*Based on the information from the Action Plan response previously provided to HUD:*

1. Briefly describe how you met the performance standards identified in A-90 this program year. If they are not measurable as written type in N/A as the answer.

N/A

2. Briefly describe what you did not meet and why. If they are not measurable as written type in N/A as the answer.

N/A

OR

3. If your standards were not written as measurable, provide a sample of what you will change them to in the future? If they were measurable and you answered above type in N/A as the answer.

The measurable standards that GHURA will change in the future is to ensure accountability and effectiveness of the program. These standards are outlined in performance measures and reporting requirements which include the following:

1. Reduction in number of homeless individuals and families by helping homeless individuals move to PH quickly as they are being assisted with Rapid Rehousing.
2. The use of Homelessness Prevention (HP) assistance by keeping at-risk households housed to prevent homelessness; provide financial assistance with arrears for 6 months and encourage participants to achieve financial stability for earned and unearned income.
3. Identify barriers to housing, the connection to other mainstream services and resources and outcomes for families and individuals upon completion of a program.
4. Maintain the use of HMIS for client referrals and assessments.

These measurable standards help ensure ESG funding addresses homelessness, aligns with HUD's strategic goals, and supports communities in achieving sustainable outcomes.
